APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to existing rights and is further subject to revocation if and when water can be furnished by an entity such as a water district or a municipality engaged in furnishing water. A meter must be installed in the discharge pipeline, near the point of diversion, and accurate measurements must be kept of water placed to beneficial use. It is understood that this right must allow for a reasonable lowering of the static water level. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030; therefore, the State retains the right to regulate the use of the water herein granted at any and all times. The well which exists at the point of diversion described in this Permit at the time of its issuance does not meet the minimum construction requirements set forth in the "Rules and Regulations" for drilling wells in Nevada, therefore, before any diversion can be made from the subject well for the use described in the Permit, said well must be properly reconstructed under the supervision of representatives of the Division of Water Resources. If a new well is drilled in the nearby vicinity of the subject existing well, then the old well must be properly plugged and sealed.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.....0.05.....cubic feet per second, but not to exceed 9.0 mg annually.

Actual construction work shall begin on or before.....August 13, 1969

Proof of commencement of work shall be filed before.....September 13, 1969

Work must be prosecuted with reasonable diligence and be completed on or before.....August 13, 1970

Proof of completion of work shall be filed before.....September 13, 1970

Application of water to beneficial use shall be made on or before.....August 13, 1973

Proof of the application of water to beneficial use shall be filed on or before.....September 13, 1973

Map in support of proof of beneficial use shall be filed on or before.....

Commencement of work filed.....MAR 30 1970

Completion of work filed.....

Proof of beneficial use filed.....

Cultural map filed.....
